Android/IOS development

Projects

Noodle Star Project

Sept 2024- Feb 2025

- Recognized potential clients' needs, such as enhancing visibility and developing their first website.
- Delivered a full-stack project from the ground up, taking on roles as Developer, Scrum Master, and Product Owner.
- Technology: Postman | Docker | RESTful APIs | MySQL | PostgreSQL | Spring Boot | Junit | MongoDB | React | GitHub | Figma

Pet Clinic Project

Sept 2024- Dec 2024

- Developed a full-stack web application for a Chinese food company, addressing client needs by enhancing online visibility and creating their first website. Implementing multiple features such as Ordering food, generating reports for the owner and finally the possibility to make a reservation.
- Took on multiple roles (Developer, Scrum Master, and Product Owner) to lead the project from concept to deployment, managing the development process, client communication, and feature prioritization.
- Technology: Postman | Docker | RESTful APIs | MySQL | PostgreSQL | Spring Boot | Junit | MongoDB | React | GitHub | CI/CD

Artwork Project

Sept 2023- Dec 2023

- Created a comprehensive full-stack Virtual Art Gallery platform that allows artists to display and sell their creations online. Notable features included an interactive gallery, detailed artwork descriptions, and a secure login system.
- Developed the backend and frontend utilizing cshtml, ASP.NET, and Scaffolding.
- Technologies Used: ASP.NET Core | HTML5 | CSS3 | JavaScript | SQL Server
